

Brilliant cut designs are the perfect way to decorate anything containing glass, from mirror wardrobes and framed mirrors to doors or double glazing. They reflect the light beautifully, add interest and the perceived value of the final product.

We can create your own personal design or multiple designs from lines, circles or scrolls using the latest computer technology.

This catalogue contains our most popular range of brilliant cut designs which are produced by grinding a 'V' shaped notch into the face of the glass which is then polished to a brilliant finish.

Brilliant cut designs can be cut into obscured glass to add an element of privacy for toilets and other private areas.

Where safety is a concern, brilliant cut designs can be supplied in both toughened and laminated glass complying to BS 6206.

For further advice on designs or prices,  
please contact our sales office.
